Purvela Water Filters

I am very excited about these! They filter out 99.9% of key contaminants, including fluoride (whoa hoo!), as well as radio-active elements, and increases water alkalinity up to 9pH or 10pH. The 20-oz bottles are wonderful for travel and on-the-go. The 128-oz pitcher is ideal for home use. Filters last approximately 4-months depending on your municipal water and usage.

Where to order:

Apex Energetix **1-800-736-4381**, use patient code **P2660**

Options (Portable 20 oz. bottles or 128 oz. pitchers)
